

Infection Protection Attestation

This attestation is a prerequisite for employment and for acceptance for a work placement, a medical elective or a clinical practical year (KPJ – Klinisches Praktisches Jahr) in any areas that involve working with or around patients in the A.ö. Landeskrankenhaus – Universitätskliniken Innsbruck.

To Whom it May Concern,

Before you begin employment, your work placement, medical elective or clinical practical year in any area that involves working with or around patients, you must, for your own protection and that of the patients, provide confirmation of immunity to measles, mumps, rubella and varicella, either through documented evidence that you have received two vaccines or evidence of a positive antibody titre. We appreciate your understanding in this matter.

First name and family name

Insurance no. and date of birth

Address

Email address

Telephone number

Matriculation number (for students)

Compulsory infection protection attestation

Are you protected against the following?

two vaccines or positive IgG antibody titre

Measles yes no
